

CARING CONSULTANT (18 and beyond)

Resources we love.

Church-wide Daily Devotions. There is nothing better than going through the Bible together as a family. This will spark conversations about God's word and allow your family to grow closer to God together.

More than a Carpenter, Josh McDowell. This is an amazing book to help grasp the truth of Jesus Christ. As young men and women leave the home, they will need to know what they believe and why they believe in it, this book can help in that process!

Dangerous Prayers, Craig Groeschel. This book will help not only take your prayers to the next level, but your children's as well. Prayer is one of the most important things in our faith and we believe this book will help deepen that relationship with God.

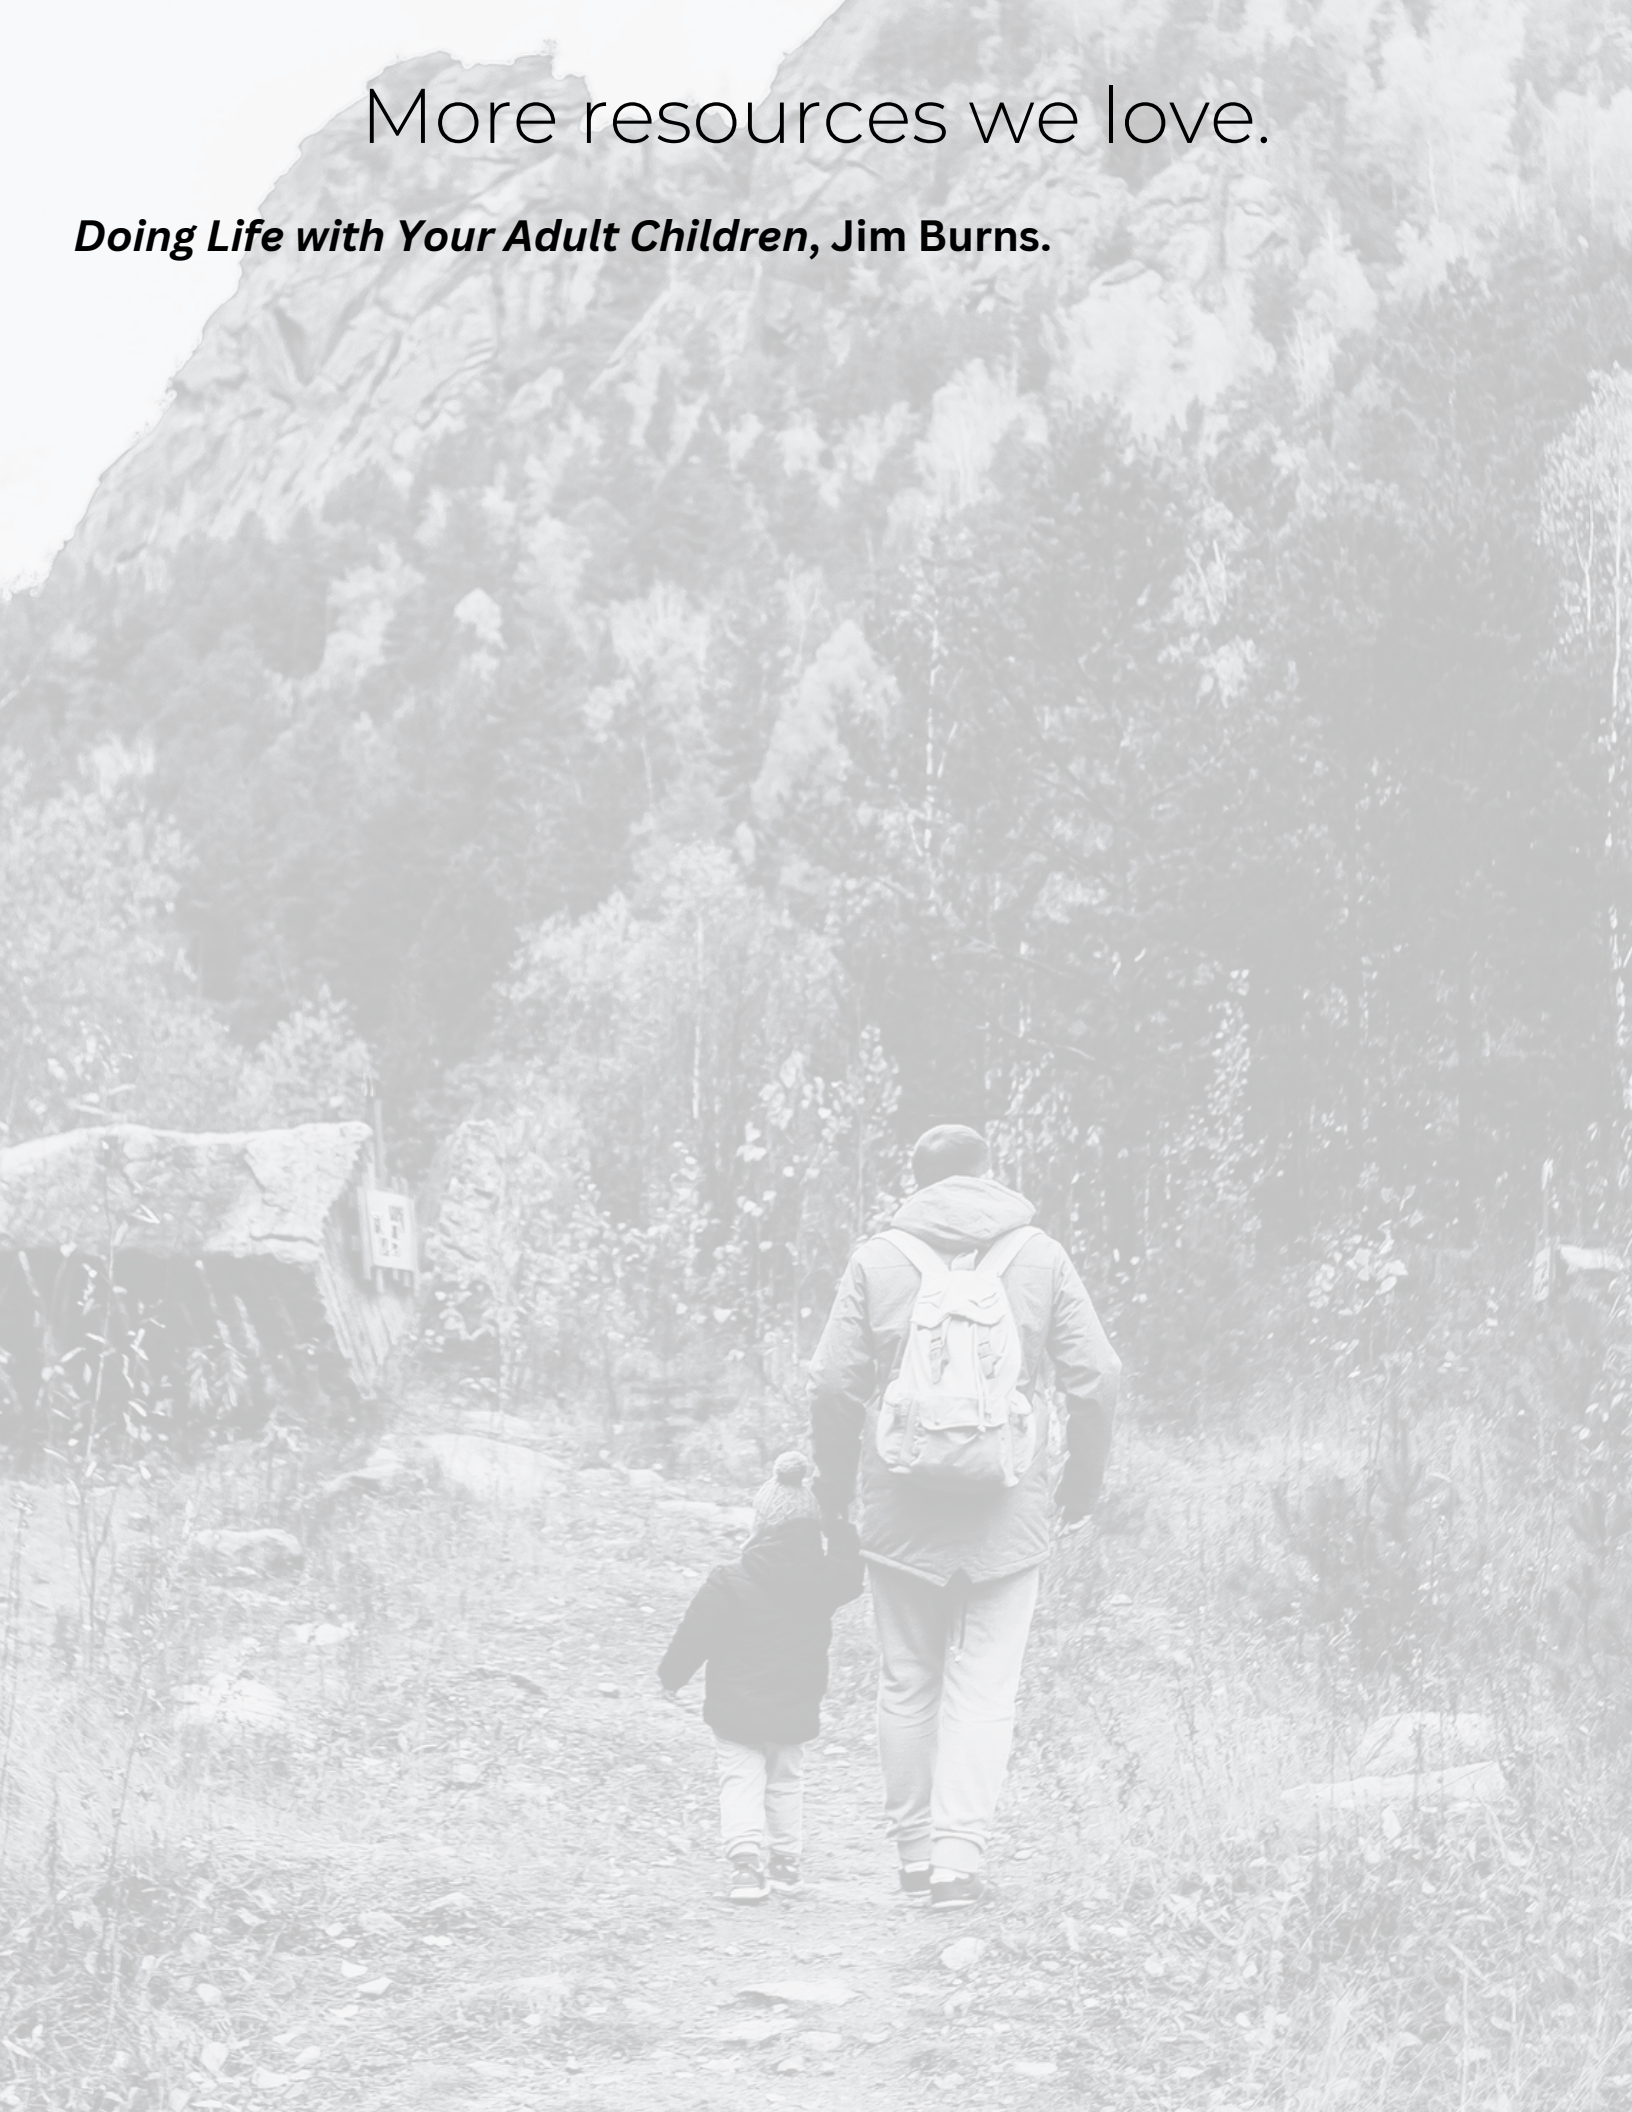

Cutting Room Floor Podcast, Church of the Open Door. Do you ever feel like you just want to hear more from the speaker on any given Sunday? This podcast takes a deep dive into our weekly Church services and helps deepen the roots of those who listen.

Counseling. We believe that counseling is a great resource that can come alongside young adults and families as they process the life around them. If you are interested in counseling please reach out to your campus staff!

Covenant Eyes. This is an incredible resource to keep us all accountable about where our eyes wander on our electronic devices. This resource sends weekly reports to people you select, sharing where you have been online and if any inappropriate material has been viewed or visited.

More resources we love.

Doing Life with Your Adult Children, Jim Burns.
